

25% Off MV Lighting for Demo/Lab Use

LDDLIGHT.com is pleased to offer a 25% discount on machine vision lighting products and accessories for use in our customers' demo rooms and labs.

Terms:

Discounted demo/lab products are new products, covered by LDDLIGHT.com's [standard warranties](#) and are available to all customers. Demo/lab products are not for resale and their warranties are not transferable. All LDDLIGHT.com products (lights, cables & accessories, power & control, and lens filters) are available for purchase in this program. A suggested list of demo/lab products is outlined below, but customers are encouraged to choose their own products, selecting the models they feel most appropriate to serve their needs. Shipping costs for these orders are the customer's responsibility, and all orders will be shipped FOB Milford, NH.

How to order:

LDDLIGHT.com makes buying easy. We offer on-line, e-mail, FAX or phone purchase via PO or credit card (credit card payment through our on-line store is not available for discounted demo/lab products).

When placing your demo/lab products order, please specify "For Lab Use" in your PO.

All products on a demo/lab products order must ship to a single customer location. Customers wishing to order demo/lab products for multiple locations may do so, but should place one order per location.

Placing a Purchase Order (PO) or Credit Card Order:

- First time customers: please send your standard credit references (email to sales@lddligh.com or FAX to 603-732-0058).
- PO numbers can be referenced when placing orders with our on-line shopping cart. **Please preface your PO number with "LABKIT" in step 4 of the checkout process.**
- Purchase orders can be emailed to sales@lddligh.com.
- Purchase orders can be faxed to 603-732-0058.
- Purchase orders can be called in to 603-732-0057.

Payment Terms:

- Our standard terms are Net 30. Call us at 603-732-0057 if special arrangements are needed.
- We accept most major credit cards.

Suggested demo/lab products:

These lights illuminate a field of view (FOV) ~ 25mm square. See the [LDDLIGHT.com web site](#) for other sizes.
